## Book Review by Devin Gray

We all know the story of Kristopher Kringle and his toy shop in the North Pole, but did you know that he has a lesser-known sister as well? Not only does he have a sister, but she is also magical and has her own story to tell. *The Legend of the Christmas Witch* is a heart-warming tale following the journey of Kristtorn, the twin sister of Kristopher Kringle, as she travels the world to try and reunite with her brother after having been separated as children. Whereas Kris is loving and soft-spoken, Kristtorn is a passionate spitfire with a soft spot for nature and protecting animals. In her pursuit of reuniting with her brother, she runs into trouble after trouble as people misunderstand the way she dresses and speaks as threatening, regardless of her reassurance of kind words. In the end, the two siblings are reunited, but not for long. If you want to find out if they find their happily-ever-after, you'll have to read the book! (Also, did I mention that this book was written by Aubrey Plaza herself?)
