Book Review by Callum Carr

A Woman is No Man by Etaf Rum

Rum's debut is a generational story following the lives of Palestinian women living in New York City. *A Woman is No Man* delves deep into how the decades of trauma these women experienced, paired with the toxic masculinity found in their communities, has made their lives what they are today. Filled with compelling, multi-dimensional characters, terrifying twists and turns, and writing that will break your soul only to try and glue it back together with hope, Rum has joined an exclusive list of three authors who have made me throw a book. If you want a book that will make you feel, this is one of them.
