

Digital Accessibility Statement

Spartanburg County Public Libraries' (SCPL) commitment to digital accessibility aims to ensure that all functionality and all content is accessible to all patrons.

Our ongoing effort works towards conforming to the Web Content Accessibility Guidelines (WCAG) version 2.1, level AA criteria. These guidelines not only help make web content accessible to patrons with language barriers, and sensory, cognitive and mobility disabilities, but ultimately to all patrons, regardless of ability.

SCPL has deployed a digital accessibility toolbar provided by Recite Me on <https://www.spartanburglibraries.org> to meet some of these needs. With tools for language translation, color contrast, audible readings, sensory guides, and more, this toolbar is an aid for everyone.

SCPL also recognizes the importance of structural markup, color contrast, content, text equivalents, keyboard access, and consistency and performs regular accessibility assessments on all digital products created and maintained by SCPL staff. SCPL strives to work with vendors and partners who share this digital accessibility vision.

Our goal is to make Spartanburg County Public Libraries as accessible as possible. SCPL welcomes comments on how to improve the site's accessibility for patrons with disabilities.
